Education

Massachusetts Institute of Technology

2014-2018

B.S. & M.Eng. in Computer Science & Engineering

GPA: 5.0/5.0

> 6.869 // Computer Vision > 6.824 // Distributed Systems > 6.046 // Algorithm Design > 6.034 // Artificial Intelligence
> 6.858 // Computer Security > 6.172 // Performance Engineering > 6.036 // Machine Learning > 6.033 // Computer Systems
> 6.828 // Operating Systems > 6.170 // Software Studio > 6.035 // Dynamic Language Eng. > 6.148 // Web Programming Comp.

Engineering

MIT CSAIL // Research Assistant

2017-2018

- > Investigate computational understanding and generation of vector graphics
- > Built tooling for crowdsourced data annotation & analysis

Affirm // Software Engineering Intern

Summer 2017

- > Built data pipeline monitoring and visualization tooling on Risk Engineering team using Python
- > Added semantic schematization in pipeline to improve data integrity

Jane Street Capital // Software Engineering Intern

January 2017

- > Contributed to financial market trading infrastructure using OCaml

Airbnb // Software Engineering Intern

Summer 2016

- > Worked on government ID image processing on the Trust team using Tesseract, Ruby on Rails, and OpenCV
- > Developed service to preprocess image and determine ID image quality

Google // Engineering Practicum Intern

Summer 2015

- > Created an Android app for benchmarking Android libraries using Java and C++
- > Built a test system that runs automatically and tracks historical data using Python, Flask, Angular

Leadership

Greylock X // Fellow

Summer 2017

KPCB Fellowship // Engineering Fellow

Summer 2016

HackMIT & Blueprint // Co-director

2014-2016

Rough Draft Ventures // Student Partner

2015-2016

Awards

MIT 6.170 Software Studio // Top 10 Overall Grade, Best Feature Set

Fall 2015

MIT 6.148 Web Programming Competition // 4th Place, Most Responsive Design

January 2015

Teaching

MIT 6.031 Elements of Software Construction

Spring 2017 & Fall 2017

MIT 6.148 Web Programming Competition

January 2016

Skills

Python, Java, JavaScript, Rails, Flask, Node.js, MongoDB, PHP, MySQL, CSS, C, C++, Git, \LaTeX
